

Dear Friends,

We hope you and all your children are having a wonderful start to the school year!

This Fall, we will be offering a 4 week class entitled "Design and Build." Your child will be creating three dimensional work out of a variety of mixed mediums. They will be introduced to the process of making art with other important life skills like teamwork and problem solving while having tons of fun too. There will be individual projects and well as group projects.

You may select a session on Wednesday afternoons or Sunday mornings depending on your schedule. Classes will be held at the located Cornerstone Montclair 198 Bellevue Avenue). Details and registration are below:
